

Auro Hosting – Preferred Partner Program

This document describes the Preferred Partner (PP) Program for Hosting solutions offered by Auro Infotech.

Preferred Partner Program Rules

1. Preferred Partner Program packages are based on 50% of the cost for MS SQL Server based packages and 25% of the cost for all other packages on the AI Web Hosting Calculator, as of 25-Nov-2004. The cost for these packages will not be impacted by the changes to the AI Web Hosting Calculator in the future.
2. Preferred Partner packages are for hosting only and do not include Domain Name Registrations.
3. Each package represents hosting for one domain only.
4. To retain ‘Preferred Partner’ (PP) status any point of time the disk space of total of your hosting packages from AI should be greater than 1GB.
5. Yearly payments have to be made in advance along with the request for hosting.

Preferred Partner Packages

Package	Disk Space	Monthly Bandwidth	OS	Yearly Cost
